

## ICAR NRCO Observes Monthly Cyber Awareness Program

As a part of creating awareness on “Cyber Hygiene” under “Cyber Jaagrookta Diwas”. ICAR-NRCO, Pakyong is creating cyber security awareness since October 2022 and it is planned to continue for a year. With the same vision, the institute conducted the awareness campaign on 16<sup>th</sup> November 2022 with a successful interactive session in which all scientists, administrative, accounts, technicals and farm staffs of the center participated. The program started under the leadership of Dr. Ram Pal, Director. Sh. Bharath Kumar Alam, Scientist, AKMU In Charge, welcomed the gathering and spoke a few words about the need to increase awareness through daily experiences and future action plans to create new campaigns. Followed by Pritam Shah, Young Professional II (Computer), spoke about the basics of cyber security and shared the health report of the official website of the institute. NRCO digital library

implemented by AKMU of the center was officially shared to all employees and functional features were presented. In addition to that, some daily mail usage that revealed tasks and calendar sharing activities was explored, and also took some requests/suggestions from the meeting. The program ended with a vote of thanks from Bharath Kumar Alam, where he added to stay safe in the online world and asked not to share confidential information with anyone on social media.
